Neglected Children

Every community in the Province of Alberta should have a live, active Children's Aid Society. There are always cases of neglect and cruelty in every part of the country, which should come under the care of some person or persons who would be responsible for bringing the details of the case to the attention of the Department of Neglected Children, in order that the parents might be prosecuted for the criminal neglect of those for whom they should be held accountable.

A Children's Aid Society can be organized in any district where there is a desire on the part of the citizens to have such a society. The object of this Society is to receive reports of

cases concerning the neglect of or cruelty to children, to investigate all complaints of ill-treatment, to place homeless children in good family homes, to report on cases where applications have been received for children, and see that the home conditions are of the proper kind to which a child should be sent.

A Children's Aid Society should stand for social uplift, sanitary housing, regular school attendance, a fair chance for the juvenile offender, and an opportunity of equal rights for every child who is born in the community.

Those who are interested in a work of this kind are requested to write to the Superintendent of Neglected Children at Edmonton, and if there is interest enough in the community

A PATHETIC COURT SCENE

Four Boys Wander From Straight
and Narrow Path—Are Caught
Playing Game of Chance.

A CROWDED COURT ROOM.

Pool Room Proprietors Fined \$75
—Minimum Fine of \$20 Each
Imposed on the Youths

The proceedings at the court room on Monday evening were of an unusually interesting nature. Hogg & Lissard, who conduct a pool room back of Harry Howard's hotel, were charged with keeping a gambling house. They were found guilty of an infringement of the law and fined \$75 and costs.

Another interesting case was that of Mark Harrison, W. Howe, J. A. Kidd and W. Boyd in which these young fellows were charged with playing a game of chance at Hogg & Lissard's pool room on Friday evening last.

Shortly after which the room was literally packed with anxious spectators, and a large number had to stand around outside unable to wedge their way through the thick mass of humanity. Mothers with silvery locks and fathers with white beards, brothers and sisters, some of whom had grown to manhood and womanhood and some of more tender years, were present to witness the proceedings and to learn the result.

Corporal Goodrich and Constable Lee testified to having entered Hogg & Lissard's pool room on the night of the 14th inst. and to having caught the young lads in question participating in a game of chance played with dice.

It took some time to hear all the witnesses. The spectators made several interruptions and at 11.15 p.m. the noise became too great for those who were handling the case and the court-room was forthwith cleared of all excepting those connected with the case and the representatives of the press. A few minutes later the electric lights went out and as the sky light would say, "Plunged in a gulf of dark despair those wretched sinners lay." A lamp was hastily procured and as soon as some degree of illumination was secured the judges proceeded with their work. Near midnight the judges gave their decision and fined Mark Harrison, W. Howe, J. A. Kidd and W. Boyd each \$20 and costs or two months' imprisonment.

The both cases may be appealed. Justices Belcher and Gresham presided. I. H. Putnam appeared for Hogg, Harrison, Howe, Kidd and Boyd.

from which the application comes for the formation of a Children's Aid Society, an organization will be started as soon as possible which will be given full powers under the Children's Protection Act of Alberta.

POORLY MANAGED

The following is an extract from the editorial columns of the June number of the British Columbia Mining and Engineering Record, published at Victoria, B. C.:

"T. L. Lewis, recent president of the United Mine Workers of America, apparently views with apprehension the future of the struggle between labor and capital. In retiring from office he declared that the organization of which he had been head was gradually drifting into the control of the men with no sense of justice, no regard for wage contracts, and no scruples as to how to obtain power."

After reading the above article, we should judge that ex-president T. L. Lewis must have had in mind District 18 of the U. M. W. of A., as well as other districts.

Every man in the Pass with a good insight into conditions is aware that the above remarks on Mr. Lewis's part would apply to certain officials of the U. M. W. of A. in the Crow's Nest Pass, and it is with a growing sense of surprise to us that the working miners under their control have so long withstood their not too scrupulous methods.

Have the officials of District 18 made their men aware of the amount of money which has been received into their coffers, and the disposition of same? and if not, why not? Do they make an accounting of their funds to their men, such as any legitimate company would consider satisfactory and upright, or such as would be considered a sufficient safeguard to the interests of its shareholders. Furthermore we would like to ask the question, do properly incorporated companies in Canada appoint their own auditors from among their own staff, or in fact, do they appoint any one who is in any way connected with the company's affairs to audit their accounts?

Again we would like to ask if any action has been taken by the mine workers leading to an investigation into the affairs of the Eureka Coal Co., at Taber, Alberta. It is well-known, and in fact was admitted by one of them during the sitting of the 30th Oct. 1910, that certain high officials are interested financially in the Eureka Coal Company. It is also well-known that this Company has continued to work during the present strike. It may be true that they granted their workmen an advance in wages in order to accomplish this; but to cover this it is stated that they also advanced the price of coal to the consumer 50 cents per ton, and this at a time when the consumer had to pay the advance or do without coal—in fact, a truly western hold-up—without, mark you, any probability of this price being maintained when all competing coal companies get into operation again. What we would ask these philanthropic coal operating mine officials is "Do the Mine workers get the whole 50c. per ton advance which the public must pay, or do the mine officials coal operators get the largest slice?"

Dear mine-worker, it is to laugh—or weep.

We are quite sure that ex-president Lewis has not overstepped the mark at all in making the above statement, and it is a mystery to us that the rank and file of the miners in this country have so long been hoodwinked by most of their officials. It is time, we think, that the better thinking class of miner should rebel against the tyranny of their officials, which is more arbitrary and unjust than the most chimerical allegation of injustice which they so fondly ascribe to the various mining companies. In strenuous efforts to popularize themselves we have noticed that their wild attempts show a boundless capacity for inexactitude in representing facts, and we have no doubt that ex-president Lewis is as well aware of this as we are ourselves, and that this was part cause for his statements above.

Let us hope the miners in this Pass will strive together for a fuller investigation into the conduct of their organization.

TROUBLE MAKERS

The following is taken from the Daily Province, Vancouver, July 10th, 1911:

Editor Province—It is to be hoped that there will not be a repetition of last Wednesday night's disgraceful scenes in the House Show Building at Pastor Russell's meeting. These Socialists, Anarchists and infidels are mischief makers at such gatherings. They should be all rounded up, some deported, and those we must tolerate in our midst be registered and kept in order by a police force who are maintained to preserve law and order in our community. Scratch a Socialist and you will find an anarchist (their own denials that they are such to the contrary, notwithstanding), scratch a Socialist and you will find not only an infidel but invariably a grifter, and in many cases a degenerate. The British empire is no place for social lepers and political prostitutes of this brand. We have plenty of little islands along our British Columbia coast which would make good dumping grounds for such fanatics, where they would not only be safely out of harm's way, but able to attempt to carry out their impossible social programme without let or hindrance from peaceful and law-abiding citizens. It rests with the powers that be to deal with these undesirable citizens. They must be taught that the British flag flies over this section of God's earth and be impressed with the fact that the British flag spells democracy and freedom in its truest sense.

the above article. We have them in our midst of just the same stamp and the same anarchistic tendencies. Just how long it will take the public to become disgusted with their methods is problematical. We, however, have great faith in the general good sense of the public of Canada, and think that it will not be long before they rise in their might and smite these parasitical thugs from out their midst. It is Thomas Carlyle, we think, who stated that "a falsehood cannot last forever." This statement can be almost taken as an axiom, inasmuch as the history of the world has proved it. These socialists are sores in the people's side and it will take some very stringent medicine to remove them. Once it is done, however, it will leave a clean, healthy, sanitary and wholesome-smelling body, which can govern itself along the highest and truest democratic principles.

I honour any man anywhere, who, in the conscientious discharge of what he believes to be his duty, dares to stand alone. — Charles Sumner.

Take Care of the Boys.

It was a pitiful sight on Monday evening when four young lads were up before court at Blainmore charged with having been participating in a game of chance in one of the local pool rooms. It is a pity that boys cannot find something more elevating than loafing around such places.

The worst habit that boys can fall into is that of loafing around on the street corners or in some pool room or gambling joint, at night. It is then they cast their lot in slippery places when at all moment they are likely to fall from grace. All good and noble lessons taught them by their mothers are there counteracted and nullified. They learn nothing that is good—but many things that are bad.

The boys who spend their evenings in the sacred precincts of home, with good books for their companions are the future hope of this Dominion. They will fill our legislative halls, and act in judgment upon men and measures, while the boys who run the streets and spend their time around pool rooms will fill our penitentiaries, almshouses and lunatic asylums.

Parents who are responsible for these broken laws of decency will have broken hearts and bowed down heads in the awakening years that will eventually follow.

Turtle Mountain.

No little stir was caused amongst the Frank people a few days ago when it was reported that the town of Frank was in danger of another landslide. A few of the people, without stopping to think believed that a repetition of what took place about 4:20 o'clock on the morning of April 29th, 1908, was threatening them and was likely to occur at any minute.

It appears that all this commotion and uneasiness was caused by a report given out about the 1st of July by Prof. W. K. Brock, from observations taken by the said gentleman or some members of his geological survey parties about a year ago. If the Turtle Mountain is so near falling as the professor's report would imply, and if Frank is in such imminent danger of another mountain slide as the professor claims it to be, why did he not make it known immediately to those people who are living within close proximity of the mountain and whose lives, the professor claimed, were in great peril. Then again, why did he not at once inform some of the officials of the Canadian Coal Consolidated, which Company has over two million dollars invested in mining property and which company only recently erected a sanatorium in the town of Frank at a cost of upwards of \$100,000 and not to have waited a whole year before giving out such a report? The absurdity of such reports is undoubtedly very plain, and all anxiety should be dispelled at once.

Mr. A. A. Muller, general manager for the Canadian Coal Consolidated, has acted very fairly in asking the government to appoint a board of capable men to investigate the condition of Turtle Mountain and to report accordingly.

It is too bad that those damaging reports regarding Turtle Mountain

are concocted with regular periodicity, and we would like to say that if Frank is in danger of another big slide, let the people know it with all haste and advise them to leave the danger zone, while on the other hand, if there is absolutely no cause for alarm and if the whole matter is instigated by a few enemies for the purpose of knocking Frank, those fabricating insinuations should be transported with all celerity.

Personally, we do not fear any grave results and cannot find any reason why the people of Frank and those who have money invested there should be the least bit alarmed.

Editorial Notes

Not yet, but—

It was a huge joke.

The fishing line is now the popular chord.

Some good people manage to be happy even if they are lonely.

It is some satisfaction to know that when people are talking about us, those busybodies are leaving others alone.

It is a very easy matter to fool some people, and we have to laugh loud and long whenever we think about it. "Nuff Sed."

While the non-advertiser is making friends with his neighbor, the advertiser has reached the pocket-books of the entire neighborhood.

The lofty eminence of Turtle Mountain refuses to come down northward or northeastward in spite of all that has been said to the contrary.

July "Rod and Gun."

"Following the Fur Trails," a story of the far North of interest to every Canadian, opens the July number of "Rod and Gun in Canada," published by W. J. Taylor, Ltd., Woodstock, Ont. In this story Mr. R. J. Fraser, who is engaged on the Hydrographic Survey, relates interesting incidents of the eight months' stay of the party engaged in survey work in the neighborhood of Hudson's Bay and tells of an attack upon the camp of Polar bears. He gives particulars of the fine trapping in which the party engaged and the excellent results of this portion of their work. There is much variety in the other stories both fishermen and hunters receiving due attention and stories and experiences from the far East as well as from the far West are included.

Picnic.

A picnic was given at the Gebro ranch, about twelve miles east of Blainmore, on Sunday last. About 10:30 a.m. a number of rigs left Blainmore and Frank and drove in an easterly direction. The ranch was reached after a pleasant drive when the young folk enjoyed themselves in fishing, etc. Several large specimens of the finny tribe were safely landed on the river bank. After thoroughly enjoying themselves the party started for home shortly after the sun had disappeared in the western sky, and arrived safely at 10:50 p.m. The party consisted of Mr. and "Mrs." W. Wetmore, Mr. and "Mrs." McHugh, Mr. and Mrs. Roberts, Mr. and "Mrs." Macdonald, Mr. and "Mrs." Lewis, Mr. and "Mrs." Schuur, Mr. and "Mrs." Ward, Mr. Berry, Capt. Beebe and Mrs. Gebro. The only thing that threatened to mar the pleasure of the day happened when a youth from Coleman tried to do a goo-goo stunt with his left eye and neglected to watch the horse which he had in charge, with the result that the horse walked over the side of a road called "lovers' lane," the rig capsized and the driver and his better half were thrown out.

Ice cream and refreshments will be served on the veranda or the inside of the Rocky Mountain Sanatorium every Wednesday and Sunday all day.

Happenings in and Around Blainmore

W. F. Eddy and C. Sedgwick came in from South Fork on Monday.

H. C. and E. E. Lancaster, of Pincher Creek, were in town on Tuesday.

Mr. and Mrs. Daniel Drain arrived in town from Prince Rupert on Monday.

Arthur Gallop has accepted a position as compositor on the staff of the Enterprise.

L. H. Putnam has opened up a law office in the Nicifero building on Victoria Street.

J. D. S. Barrett, editor of this paper, returned from Lethbridge on Friday evening last.

F. E. Hinds and J. S. Murray left on Monday on a fishing expedition to the South Fork.

Miss N. McKenzie, of Oids, has accepted a position as stenographer on the Blainmore Enterprise.

Miss E. Peltier arrived in town from Monarch on Tuesday and will spend about three weeks visiting friends here.

A party of young ladies and gentlemen, drove from here to the South Fork on Tuesday, where they will spend several days fishing.

Miss Frayer returned home from Winnipeg last week after spending about four months at a business college in the prairie metropolis.

Rev. W. Armstrong, of South Pincher, conducted services in Central Baptist church here on Sunday last, the pastor, Rev. J. F. Hunter, being away attending a church conference at Calgary.

The Ladies' Aid of the Central Baptist Church gave an entertainment and ice-cream social in the church on Monday evening last. A goodly crowd was present and an enjoyable evening spent.

An installation service will be held in the Oddfellows' Hall on Tuesday evening next when all members of Blainmore Lodge, No. 68, L.O.O.F., are requested to attend. The D.D.G.M. and other important officers of this district will be present to take part in the service. It is important that every member be present at this service.

W. J. Bartlett, manager of this paper, left of Monday evening on an extended trip to the New England States, the Maritime Provinces and Newfoundland. Mr. Bartlett will be away about three months, part of which time he will spend in hunting and fishing in England's oldest colony and when he returns home he will bring with him many valuable trophies of his hunt in Newfoundland.

Blainmore Vs. Hillcrest.

On Friday evening last the Blainmore football team was defeated after a hard struggle by the combined teams of Frank, Bellevue and Hillcrest under the non-deplume of the Hillcrest Football Club. Blainmore intended to play Hillcrest on that evening, but it appears that Hillcrest felt a sagging somewhere and thought it wise to reinforce their batteries in order to win out against the Blainmore stars. However the Blainmore Stars turned out to be but a pick-up of "scrubs" who gave the visiting combination the worry of their wits to find a passage between the goal posts of the home players. The result—1-0, in favor of Hillcrest—Frank-Bellevue was only made by a most heated struggle which left the visitors nothing whatever to boast of. So far this season the Blainmore footballers have shown none but the cleanest play in all their matches and they feel rather indignant over a visiting team filling up their lackings with the "stars" of other teams.

There is not a voice which more effectually contracts and densens the feelings than the desire of accumulating possessions. —Mant.

The "2" Big Stores

The General Run of Paints

are first-rate for ordinary purposes. But we claim that our paints are above the general run, and will outlast the others.
 If you want paints that are really good, our store is the place to get them. We have them in all the colors in general use, and when once you see our paints, you'll feel satisfied that they are the best.
 A NECESSARY element to make your house, fence or barn look neat and attractive is to give it a coat or two of paint occasionally. Buy some now. You'll need it sooner or later. We charge very moderate prices for it.

News of World-Wide Interest From the Canadian Metropolis

(From Our Own Correspondent)

Montreal, July 19.—There have been a disquieting number of complaints concerning the taking of the census. Individuals, if there are enough of them, make a community and there have been enough queries and complaints from citizens who wish to be counted in Montreal's total but whom the enumerators have apparently overlooked to form quite a respectable village.

The recent hold-up of a mail train in which the robbers escaped with the registered mail is cited by postal authorities here as emphasizing the rarity of losses of this kind. While hundreds of millions of dollars are transported by mail, the total indemnity paid by the post office during the past year on account of train robberies was only \$789. Much of the dissatisfaction on the part of highwaymen to interfere with mail is in fact undoubtedly due to the reputation which the Dominion and Mounted Police have gained of never letting up on the trail of a peccator and of eventually "landing" every man who tries to prey upon the mails.

"Human Cat"

Never Hurt.

Falling more than a mile without injury is the record which has just been set here by a man known to his fellow workers by "Nine Lives Tim" and "the human cat" who is neither an acrobat nor a balloonist but a painter who has done his falling without the aid of artificial means of support. He rounded out his hundredth fall of 26 feet or over this week by jumping 120 feet from a building in which he was at work, landing on his feet and escaping without any more serious injury than damage to his trousers, although had it not been for the intervention of telegraph wires which broke his fall it is likely that this would have been his last tumble. Only three weeks ago he fell fifty feet from another building and his record included twenty falls from barns, thirty-eight from trees and more than one hundred from the roofs of residences. Falls from bicycles, fences and downspouts have been so numerous that their total has not been kept, since the human cat regards them as entirely too trivial to remember. But in spite of his peculiar proclivity for taking unexpected drops, he always lands on his feet and has not a scar to show for his mile of tumbling.

Takes Five Years to Get Acquainted

That five years of discord is the price of ultimate marital happiness is the judgment of a Superior Court justice just rendered here. No more inopportune time could have been selected for the rendering of this gloomy opinion since marriages at this time of year are more numerous than at any other season. However the dire pronouncement of the learned official seems to have had little effect since Cupid continues to be just as busy as ever. "In my opinion," said the court, "it takes about five years for the ordinary couple to become accustomed and adapted to each other before they can live together congenially. In other words it takes that time for them to overlook one another's faults." The Court also upset the prevalent notion that a legal separation is meant to divide the man and wife for all time by declaring "nothing of the kind. This decree to live apart often has the effect of forcing the separated man and wife to appreciate each other's company. They can reunite." Apparently in view of these learned opinions matrimony is still more of a jottery than even pessimists have pictured it.

Canadian Air Routes

To Be Mapped Out

Plans for a big undertaking, which has in view the establishing of a new canal between Montreal, Lake Champlain and New York have been placed before the Department of Public Works at Ottawa for approval by Mr. C. L. Harvey of Montreal on behalf of the Lake Champlain and St. Lawrence Ship Canal Company. A 12 foot waterway is proposed, and a scheme will involve the construction of twenty-one miles of new canal through the countries of Charby, St.

Johns and Laprairie.

The works will start at Fryer's Island, five or six miles below St. Johns, and terminate at Longquill, opposite Montreal. The estimated cost does not appear from the plans, but will be up in the millions.

The object in view is the connection of Montreal with Lake Champlain by a better system of waterway than now exists, while from Lake Champlain connection will be made with the Hudson River and New York.

Right in your busiest season when you have the least time to spare you are most likely to take diarrhoea and one several days' time, unless you have Chamberlain's Colic, Cholera and Diarrhoea Remedy at hand and take a dose on the first appearance of the disease. For sale by all dealers.

Here and There

The Interprovincial Stock Show and Race Meet takes place at Edmonton this year on August 15th, 16th, 17th, 18th and 19th, coming after the Dominion Fair at Regina and follows by the Lethbridge Fair. Excursion rates have been granted by all railroads and an opportunity is given to all to visit the Capital City of Alberta when it can be seen at its best.

The directors of the Edmonton Exhibition aim to make Stock the leading feature of their Fair and have appropriated \$150,000 to be expended on Stock buildings alone. The Fair Grounds are splendidly laid out. The Race Track is second to none in Canada, as well as the Grand Stand and Stock Buildings. The Parker Shows the largest of their kind on the road will make the midway one of the most entertaining ever seen in Alberta. High class attractions have been obtained for the Grand Stand, attractions platform and the display of fireworks which have been especially made for the Coronation year will exceed anything seen in Edmonton before.

LOST.

On Tuesday night, on wagon road between Coleman and Blairmore, a gentleman's gold watch, fender, please leave same with H. E. McDONALD, Eastern Trust and Savings Bank, Coleman.

Happenings in and Around Frank

W. N. Day came up from Spokane on Tuesday.

G. McKerracher, of Toronto, is spending a few days in town.

C. G. Mitchell and R. G. Jardine came in from Lethbridge on Tuesday.

W. Whiddington, of Lethbridge, is in town doing some architectural work.

Mr. and Mrs. J. H. Farmer returned from a trip to the Eastern Provinces on Monday.

Miss Rusk, of Diamond City, came to town on Tuesday, and is visiting friends here.

Mr. and Mrs. V. H. Wetmore, formerly of the Imperial hotel, have taken up their residence in Blairmore.

Mr. and Mrs. J. W. Gardner came in from the North Fork on Monday and were guests at the Frank hotel for a few days. They left again this week on a visit to the Kootenay after which they will return to the North Fork where Mr. Gardner is heavily interested in mining property.

J. T. Stirling and E. Howthorne, provincial mine inspectors, gave a demonstration of the Dräger life-saving apparatus, for use in coal mines, to a number of mine operators and other parties interested, in the example rooms of the Rocky Mountain Sanatorium on Tuesday last. Those present plainly saw how successfully that life-saving apparatus may be used and they became more convinced than ever of the necessity of having several of the Dräger life-saving apparatuses installed at the different mining camps along the Pass so that they may be close at hand and ready for any emergency.

Frank was visited by a large brown bear on Monday evening last. Bruin visited Blossomwood ranch and delighted himself around the poultry yard where he played havoc and devoured five of Mr. Drumm's splendid turkeys. After successfully evading the hunters, the bear visited the Bohemian town and almost frightened the wits out of some of the inhabitants.

The news soon spread that Mr. Bruin was in town and many of the women and children hurried indoors while some of the men of more venturesome spirit provided themselves with pickets, knives and rifles and started off in search of the visitor's hide. Their search was in vain and the bear got away safely to the woods.

Bout at Frank

Was a Draw

Phillip Perocco and Phillip Ostaplok were fued by Justice Graham on Wednesday \$5 and costs each for being drunk and disorderly.

On Tuesday evening those two worthies, whose names appear at the commencement of this item, along with several others of the same nationality, were in the bush north of the Frank railway station and were busily engaged in drinking beer and "raising Cain." While waiting for the train we heard the noise and our curiosity became so strongly aroused that we finally decided to investigate. Thinking that perhaps some of the men were getting more than their share of the beer while others were unable to get enough to moisten their parched throats, and with that sense of justice and fair play which is so characteristic of all newspaper

Coleman Notes

Rev. T. M. Murray spent Monday at Burnis and Passburg.

Rev. J. Lang, of Passburg, is visiting Rev. and Mrs. T. M. Murray for a few days.

Alex. McLeod returned from Calgary on Sunday after attending the Alberta Baptist Convention which convened in that city from July 11th to the 13th.

Roy L. McClure, of Macleod, was married to Miss Jessie Eastwood, of New Glasgow, N.S., at the home of Mr. and Mrs. Andrew McLeod, on Tuesday last, Rev. T. M. Murray officiating.

Happiest Girl in Lincoln

A Lincoln, Neb., girl writes, "I had been ailing for some time with chronic constipation and stomach trouble. I began taking Chamberlain's Stomach and Liver Tablets and in three days I was able to be up and get better right along. I am the happiest girl in Lincoln to find such a good medicine." For sale by all dealers.

The largest funeral that has ever been seen at Coleman took place on Tuesday, when Cecilia, beloved wife of Percy Porter, was interred. The funeral took place at 3:30 p.m. from the Anglican Church. Rev. Mr. Crowther, of Michel, conducted the service. The high respect in which the late Mrs. Porter was held was shown by the children of Coleman, a large number of whom carried flowers to be placed on the grave of that young mother. Amongst those who presented wreaths were Colin McLeod, of Macleod, Dr. Ross, Nurse White, Mr. and

Mrs. Venable, Mr. and Mrs. Murr, Mrs. Rogers, Mrs. J. Burrows, of Blairmore, and Mr. and Mrs. A. Patterson. The late Mrs. Porter was only married about a year ago and very recently took up her residence in Coleman and her death, which took place on Monday, was a big surprise to her many friends. She was 29 years of age.

Lille Presbyterian Church Christian Endeavor

(Too late for last issue.)

On Tuesday evening, July 11th, an opening social and concert was held in the school house by the Presbyterian Church Christian Endeavor society and was largely attended. A splendid programme was submitted and was greatly enjoyed. The following took part: Mrs. Williams, Mrs. Keith, Miss Williams, Miss Evans, Miss Kate Williams, Miss Keith, Mr. K. L. Dawson, James McGladies, Miss Maggie Hughes and John William Evans. Mr. W. P. Williams, Hon. President of our society, gave us an encouraging speech. Constable Batcheller, Pres., performed the duties of chairman in a capable manner. After a closing address by Geo. H. Wycheley, Pastor, ample justice was done to the good things provided, in the way of cakes, tea, strawberries and ice cream. During refreshments the time was passed very pleasantly by selections on gramophone, kindly lent by Mr. Frank Anderson.

Happenings in and Around Bellevue

Messrs. H. Farley, J. Ellison and Walter Miller returned from North Fork on Friday last after having spent a good time fishing there.

Bellevue first football team visited Frank on Saturday to play for the Crown Nest Pass League and beat them by one goal to none.

The Bellevue Football Scrubbs were unable to send a team up to play Lille on July 12th owing to some of the players being out on fishing trips.

Messrs. F. Padgett, A. Varley, J. Varley, and E. Atkinson returned home on Saturday last from South Fork after a week's fishing and report having a good time.

A match race has been arranged for Wednesday afternoon, July 26, between C. Higgins, "Brownie," of Coleman, and W. H. Chappell, "Queen of the Wood," Bellevue, to be run at Coleman on the old race track.

Sprains require careful treatment. Keep quiet and apply Chamberlain's Liniment freely. It will remove the soreness and quickly restore the parts to a healthy condition. For sale by all dealers.

A party consisting of Mr. and Mrs. J. Ellison and family and Mr. and Mrs. E. Wolstenholme and party of about five of their friends left Bellevue on Sunday morning to spend a week at South Fork fishing.

The Rev. Mr. I. Smith preached a good congregation on Sunday last on the subject of "Athletes." Mr. Christie, of Bellevue, took the first part of the service. The subject for next Sunday will be "The value of a man, from a health standpoint."

A meeting of the Bellevue and district Football League was held at the South Fork Hotel on Monday night. All the teams were represented but the meeting was at a deadlock owing to Hillcrest and Burnis desiring to play more than two players out of the Crown Nest Pass League. The rule as it stands now is that the two players who sign on and play the first match out of the said league shall play every time if desired but no other player out of the said league shall play. They were desiring that any two players should play in any match. This was not settled and another meeting was called for Tuesday night to see if they could arrive at a definite agreement.

Shot a Bear

Whilst a party of fishermen from Bellevue were at the North Fork recently, J. Allsopp landed a beautiful salmon trout, which weighed 162 lbs. Mr. Allsopp was 12 hours landing this beautiful fish, and much praise is due him for the skillful manner in which he manipulated his rod and line.

Much consternation reigned amongst the above fishing party, when on Thursday, July 13th, a mountain bear was spotted. Of course the boys had to bring out the guns and with an admirable shot from the gun of A. Watson, Mr. Bear came to grief. The boys are going to exhibit the bear in the Bellevue Museum.—F.C.

Never leave home on a journey without a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is almost certain to be needed and cannot be obtained when on board the cars or steamships. For sale by all dealers.
